

Greetings!

Please allow me to welcome you into our family of patients. My staff and I are honored that you have chosen us to care for your dental needs. We look forward to becoming your partner in health. Our practice is prevention-oriented so you can expect your initial examination in our office to include all necessary x-rays, an evaluation for gum disease and an oral cancer screening. We have learned over time that detecting problems at an early stage saves our patients valuable time and money.

We know that your time is important; therefore we try to be as punctual as possible. In order to provide this courtesy to all of our patients, it is essential that you inform our office at least forty-eight hours prior to your visit if you are unable to keep your appointment.

Please complete the enclosed health and patient forms and bring them with you to your first visit. Should you have any questions, please do not hesitate to call. We are looking forward to meeting you.

In closing, I would like to emphasize that providing quality dental care is our highest goal. Achieving quality in dentistry is never an accident but accomplished through the commitment of both doctor and patient. Thank you for selecting our practice for your dental needs.

Sincerely,

William R. Lindow, DMD
